Your Expedition Leader woke you
with a gentle 2 a.m. alert. Now
you're on deck in pjs & a parka
living the dream. That's the
exhilaration of discovery.

DEAR TRAVELER,

It's time to explore, to celebrate our relationship with wild places that represent nature's splendor. We should use every opportunity we can at home and in our travels to strengthen our reverence for the Earth and all its inhabitants.

You and I both know that the relationship of humans and the planet is way out of balance. It is a subject that our children see clearly, even as many adults do not. They are deeply concerned, and, in many cases, fearful. That is just not fair, or right.

But, we have the tools and the knowledge to rebalance—all we need is the will to seriously act and live up to our responsibility to future generations.

All of us who have had the privilege of seeing the world's wonders know how much joy they bring us; how good we feel when we walk in a forest; see a polar bear trundling across the sea ice; or a group of humpback whales breaching incessantly. We get a feeling of harmony and peace, something primeval.

I can't even imagine a world where nature is not a primary ingredient—herds of elephants roaming the plain; coral reefs astounding us with their myriad colors; seabirds clouding the evening sky, returning to roost—and, I'm sure you can't either.

So, as I said in the beginning, it's time to explore and not only enjoy the wonder that is still out there, but to nurture a love, reverence, and understanding for why nature is vital and important to everything we find meaningful: our health, our security, our joy.

So, hopefully, you will be inspired by the following pages. We wish nothing more than to have the privilege of being a meaningful part of your life.

All the best,

Sven-Olof Lindblad

THERE'S NOTHING NEUTRAL WE'RE PASSIONATE ADVOCATE

But there is one subject we're neutral on—carbon. As of January 1, 2019, we are officially a carbon neutral company, offsetting the emissions of our fleet, employee travel worldwide, offices in New York and Seattle, all land-based operations, and beyond. Working in partnership with South Pole, the world's leading developer of international emission reduction projects, we now have a portfolio of six carbon project investments that align with the United Nations' Sustainable Development Goals.

Our investments focus on renewable energy, reforestation, and community-based projects in the regions our fleet visits, and beyond.

We'll continue looking for ways to lessen our carbon footprint at all levels of our business, including equipping new ships with advanced engines and systems for reducing emissions, fuel, and waste.

Soon appearing in every cabin fleet-wide—our new insulated water bottle for hot or cold liquids! A swell-egant design, it helps you stay hydrated on ship and off. Travel with us and you won't find any single-use plastic aboard. We've eliminated all single-use plastic bottles, cups, straws, and stirrers. This effort, along with future plans including crew uniforms crafted from recycled plastic; and an advanced system of cleaning and disinfecting aboard our ships that eliminates plastic and toxic chemicals, will help us further raise awareness about protecting the world's oceans.

ABOUT OUR POSITION— TES FOR THE PLANET

We serve only the most sustainable options on our ships, with the aim of keeping our oceans healthy and fish stocks constantly regenerating. Local, fresh, and sustainable food—not usually a feature of shipboard menus, is at the heart of our culinary program. Using a holistic approach and our reputable network for the research, we review every species we serve in terms of fish quotas, stock levels in particular ocean zones, method of catch, maturity levels, and feed. We are also dedicated to supporting local communities in their sustainable fishing efforts, as well as creating ocean awareness among our staff, crew, guests, suppliers, and the travel industry at large.

Our pioneering Galápagos program is rooted in our commitment to sustainability. To date, we have provisioned more than 20 tons of organic and local produce from Galápagos' farms. And not importing produce means less risk of invasive species entering the islands.

Our Antarctica parka has been revised to eliminate Velcro on the front closure—to comply with best environmental practices for South Georgia and other regions where invasive seed/plant material poses a threat.

Our commitment to sustainability is ongoing—we've been dedicated to it for 50+ years—and we will continue to make the decisions that have kept us the leaders in responsible tourism, so stay tuned. Now, you have even more reasons to feel good about exploring with us.

Voyage into Tracy or Endicott Arm, both spectacular fjords, with waterfalls cascading from glacially carved walls. See the soaring Dawes or South Sawyer Glacier up close and take a cruise in a Zodiac for an unbeatable view among sculpted icebergs. Keep an eye out for harbor seals, harbor porpoises, and arctic terns. (B,L,D)

Petersburg.

DAY 3: PETERSBURG

Navigate the serpentine waterway of the Wrangell Narrows en route to the small, true Alaskan fishing town of Petersburg on Mitkof Island. Explore a unique Southeast Alaskan ecosystem, the “muskeg,” with stunted trees and carnivorous plants. There is an opportunity for bike riding and an optional flightseeing excursion. Enjoy a crab feast this evening. (B,L,D)

DAY 4: FREDERICK SOUND AND CHATHAM STRAIT

Explore along the rugged coast seeking out humpback whales in their summer feeding grounds. Expert staff will interpret their life histories and behaviors. Later we will explore the shoreline by kayak or go ashore to explore the rainforest ecosystem. (B,L,D)

Wilderness abounds—mountain goats roam the steep cliffs and brown bears patrol the shore; sea otters and puffins live in the icy waters. A native Tlingit cultural interpreter joins us to share the lore and legend of the area. We will also be joined by a National Park Service Ranger. (B,L,D)

DAY 7: SOUTHEAST ALASKA'S ISLANDS, BAYS, AND FJORDS

Today, nature is our guide. We may explore an isolated beach to take a closer look at tide pools, beachcomb, or hike stunning forest trails, or see fresh bear tracks worn into the soil while walking in the mud of an isolated meadow. If conditions permit, we'll do some kayaking, always watching for marine and terrestrial life. (B,L,D)

DAY 1: LORETO/SAN CARLOS/EMBARK

Upon arrival in Loreto, transfer to San Carlos and embark our ship. (D)

DAY 2: BAHÍA MAGDALENA

Explore the ever-shifting sand dunes of Isla Magdalena, on a cross-island walk to one of the most pristine beaches in the Pacific. Bird watching in this area can be excellent. We may observe pelicans and cormorants skimming the waters of the bay, or terns wheeling and darting as frigatebirds ride the thermals above, looking for an easy meal. Along the beaches, resident great blue herons feed on these fertile shorelines next to migratory shorebirds, including whimbrels and willets, as they refuel for their northbound journeys. (B,L,D)

Gray whale, Laguna San Ignacio.

DAYS 3 & 4: LAGUNA SAN IGNACIO

Laguna San Ignacio is a large bay and favored haunt of the gray whales in Baja. The ship will anchor at the mouth of this remote and important locale, while we observe the mother and calf pairs in local pangas. For some reason, the whales here seem to be friendlier than they are elsewhere. It's not unusual for mothers and calves to approach our boats, the calves often playing hide and seek—sometimes even welcoming a touch or a friendly chin scratch. (B,L,D)

DAY 5: AT SEA

As we travel south along the Pacific coast of the peninsula, there is a chance of seeing

a wide variety of marine life, including the largest animal on Earth, the blue whale. (B,L,D)

DAYS 6–14: ISLANDS OF THE SEA OF CORTEZ

Cruise past the spectacular Friars Rocks at Land's End. For those who wish, we will arrange a visit to the historic town center of San José del Cabo. Isla San Pedro Mártir, Los Islotes, Isla San Francisco—these are some of the melodious names of islands scattered throughout this beautiful sea. After over 40 years of exploration here, we are still discovering new places and experiencing exciting events: bow-riding bottlenose dolphins, or sperm whales near our ship; a pod of fin whales feeding around a convergence zone. The best areas for whale watching remain consistent—the waters south of Isla Carmen, Canal de Ballenas up north, and near the mouth of Bahía Concepción. Whether on the Bridge of the ship, on Zodiacs, or kayaks, we will be in prime position to observe them all. (B,L,D)

DAY 15: LORETO/DISEMBARK

Disembark in Loreto after breakfast and transfer to the city center. You'll have the opportunity to visit the first mission in Baja California, as well as the nearby museum to learn more about what makes this town so special. EXPLORING THE SEA OF CORTEZ: A LIVING SEA & DESERT ISLES

8 Days/7 Nights—Aboard *National Geographic Venture* and
National Geographic Quest

The pristine desert islands dotting the Sea of Cortez are places of incredible biodiversity set amid a UNESCO World Heritage Marine Site dubbed “the world’s aquarium” by Jacques Cousteau. Each of these islands is a world unto itself, with a palpable feel of rugged isolation. Hike among forests of cacti and along desert *arroyos* in bloom as you search for endemic flora and fauna. Watch for swirling plunge-diving brown pelicans, blue-footed and brown-footed boobies, and the frenetic aerial activity of gulls and terns that often alerts us to large pods of acrobatic dolphins. With a flexible itinerary, decades of experience, and deep knowledge of wildlife habits, this unique journey combines the beauty and biodiversity of this legendary region with a stimulating sense of adventure.

EXPEDITION HIGHLIGHTS

- ▶ Experience a voyage of pure discovery in a UNESCO World Heritage Site, with a flexible itinerary chosen by the region’s most knowledgeable staff to maximize wildlife sightings.
- ▶ Venture further north in the Sea of Cortez to explore remote and seldom visited slands, such as Isla Rasa, a breeding ground for 90% of the world’s Heermann’s gulls and a large population of elegant terns.
- ▶ Search for pods of dolphins and other marine life. With luck, catch a leaping mobula ray as they eject from the sea and belly-flop back in the water.
- ▶ Explore water-level caves by kayak, hike uninhabited beaches, stand-up paddleboard, and snorkel among tropical fish and acrobatic sea lions.

California sea lions basking in the sun.

DAY 1: LORETO/EMBARK
 Arrive in Loreto and embark our ship. (D)

DAYS 2–7: EXPLORING THE SEA OF CORTEZ

Our routing is designed with flexibility in mind, to maximize opportunities for wildlife sightings. It will most likely include the islands and activities listed below, although the order may vary. (B,L,D)

ISLAS SAN ESTEBAN AND SAN PEDRO MÁRTIR:

Walk up a desert wash, to search for desert songbirds such as the handsome black-throated sparrow, listen for the cascading song of the canyon wren and search for the endemic pinto chuckwalla—a plump, harmless desert lizard. Later visit Isla San Pedro Mártir, a 1,000-foot-high guano-covered island that is home to thousands of seabirds: brown pelicans, magnificent frigatebirds, Brandt’s cormorants; and California sea lions.

ISLA SAN MARCOS:

At Isla San Marcos, there is a beautiful shoreline for swimming, snorkeling, and kayaking. In the afternoon, we are again in rich waters. We are on the lookout for pods of dolphins—with common and bottlenose being the most frequently encountered species. With luck they will join us as we go,

riding the bow wave and sometimes leaping from the water.

ISLA SAN JOSÉ:

One of the larger islands in the Sea of Cortez, San José, offers several landing possibilities depending on conditions and the whim of the moment. Photograph the ochre cliffs of the island’s eastern shore, hike an “enchanted,” cactus-laden *arroyo*, or visit the abandoned salt works to the west. Snorkel with sea lions and discover rare wildlife among the desert islands.

Kayaking, Isla San Marcos.

BAHÍA LORETO MARINE PARK:

This morning we’ll search the waters south of Isla Carmen for fin whales, which researchers have recently concluded may be part a resident population. Bottlenose and common

dolphins are frequently encountered. Later we visit an island of Bahía Loreto Marine Park, with ample time for kayaking, snorkeling, stand-up paddleboarding, and possibly hiking. In the evening, enjoy a beach barbecue under the desert sky.

ISLAS LOS ISLOTES AND SAN FRANCISCO:

At Los Islotes, don flippers, a mask and snorkel (which we’ll gladly provide) and swim with curious sea lions. We have a leisurely afternoon to swim, kayak, or hike at Isla San Francisco. Look skyward for yellow-footed gulls, brown pelicans, and blue-footed boobies.

DAY 8: LORETO/DISEMBARK

Disembark and explore Loreto, where we will have the opportunity to visit the first mission in Baja California, as well as the nearby museum to learn more about what makes this town so special. Enjoy free time to explore quaint shops and vibrant side streets. After lunch, transfer to Loreto Airport for flights home. (B,L)

We'll venture out in expedition landing craft to view the numerous mother-calf pairs that thrive in this region. DAYS 3–8: EXPLORING THE GALÁPAGOS

Listed below is a sample of islands we may visit during our expedition.* (B,L,D)

NORTH SEYMOUR: Follow coastal trails past playful Galápagos sea lions on this wildlife-rich central island. Continue inland through a silvery forest of endemic palo santo trees, where frigatebirds nest, blue-footed boobies dance, and where we may also encounter prehistoric-looking land iguanas feeding on cactus.

ISABELA: Cross the Equator at Volcán Ecuador, northernmost of Isabela's six great shield volcanoes. Keep an eye open for whales and dolphins, sea turtles and other marine creatures. Over two days, land in the footsteps of Darwin and Melville, and look for wildlife along the wildly eroded volcanic shore.

FERNANDINA: One of the most active oceanic volcanoes in the world, Fernandina is the youngest and most pristine island in Galápagos—and home to the strange flightless cormorant, Galápagos penguins and the largest marine iguanas. Hikes ashore lead across impressive recent lava flows.

ESPAÑOLA: See swallow-tailed gulls, Española mockingbirds, Nazca boobies and, seasonally, the world's only population of waved albatross at this birdy paradise, also home to vividly colored marine iguanas. Watch sea lions on the wide sand beach, and snorkel offshore, at Gardner Bay.

FLOREANA: Follow a trail past a rose pink-tinted lagoon frequented by flamingos. Snorkel among sea lions and abundant fish, or cruise along Champion Islet by Zodiac. Visit the famous barrel at Post Office Bay.

SANTA CRUZ: Visit Puerto Ayora, the largest town and headquarters of both the Galápagos National Park and Charles Darwin Research Station. See the monument to Lonesome George, and tour the giant tortoise breeding corrals. See the giant tortoises roaming in the wild in the lush, green highlands.

BARTOLOMÉ: Climb the steps to the summit of this 300-foot volcanic wonderland for stunning views. Explore, swim and snorkel from the beach. You might even see Galápagos penguins, one of world's rarest.

SANTIAGO: Explore tide pools and look for fur seals sheltered in quiet grottos of black basalt. Swim, snorkel, kayak and paddleboard along Santiago's spectacular coast, and explore an enchanting coastal forest where Charles Darwin once walked.

GENOVESA: Sail across the Equator to the remote northern realm of the Galápagos, surrounded by warmer tropical waters.

SAN CRISTÓBAL: Search for red-footed boobies and the endemic mockingbird and lava lizard—found only on this easternmost island, and dig your toes into the powdery white sand at a gorgeous beach fronted by iconic Kicker Rock.

Skim past giant lily pads afloat on black-water lakes, and venture deep into the rain forest on narrow tributaries. Spot sloths and monkeys, including variably colored saddleback tamarins, noisy howlers, and shaggy-tailed monk saki monkeys. Watch for an astounding variety

of birds, from tanagers and hummingbirds to parrots and endangered scarlet macaws. In the river, look for signs of the massive *paiche* fish, the Amazon’s largest; rare pink dolphins; and the infamous piranhas.

Enjoy an opportunity to swim in a lake in the reserve’s interior. Seek out *Victoria amazonica*, a giant water lily that grows in small lagoons. Go on a birdwatching hike, listening for the vocal oropendola and then look for its telltale yellow tail. Watch the sun set and listen to a cacophonous symphony of nocturnal animals calling out across the treetops. Then slip through the forest in a skiff as night falls, using a spotlight to find caimans, frogs, fishing bats and other creatures of the night.

One of the unexpected joys of traveling in the upper Amazon of Peru is the interaction we have with the local *riberños*, the traditional people who live on the riverbanks. Visit one of the communities and see the projects that we support through a local non-profit, including a variety of handicrafts, women’s health initiative and sustainable farming. (B,L,D)

Choose an adventure that crosses from one continent to another and depart Sapzurro to hike across the border into Panama, then to the beautiful beach at La Miel. Or explore Capurgana on a nature walk to look for two different species of howler monkeys, yellow-throated toucans, and myriad parrot species on the way to El Cielo waterfall. The area is renowned for its snorkeling opportunities as we take to the water for views of the Caribbean undersea world. (B,L,D)

DAY 5: BOCAS DEL ATRATO/TULENAPA

In the morning, explore the mangroves and back channels of Bocas del Atrato by boat, looking for a variety of wildlife, including the highly localized sooty-capped puffbird. Visit an isolated village among the mangroves where, for nearly a century, descendants of escaped Caribbean slaves have lived. In the afternoon, we set out for Tulenapa Reserve in Los Katios National Park to search for more wildlife—birds such as the whooping motmot, chestnut-winged chachalaca, or black-chested jay; three-toed sloth; and cotton-top tamarin monkey. (B,L,D)

DAY 6: COVENAS/LORICA/TUCHIN

Disembark in Covenas and drive inland to the town of Lorica. On our walk through the historic city center, notice the Spanish colonial-style buildings next to edifices with a distinctly Lebanese-Syrian character. Following lunch, choose to visit the small indigenous village of Tuchin, the birthplace of the Colombian sombrero or *vueltiao*—the national symbol of Colombia. Observe the traditional hat-making process, still practiced today, and meet with the *vueltiao* makers. Then visit with members of the Zenu indigenous community. (B,L,D)

DAY 7: SANTA CRUZ DEL ISLOTE/SAN BERNARDO ARCHIPELAGO

The residents of Santa Cruz del Isote, numbering 1,200, live in an area the size of two soccer fields. Zodiac to shore to meet the residents and learn about day-to-day life on the world's most densely populated island. Later, stand-up paddleboard and kayak in the San Bernardo Archipelago. (B,L,D)

DAY 8: CARTAGENA/DISEMBARK/U.S.

After breakfast on board, transfer to the airport for flights home. (B)

Mantled howler monkey.

Marae Taputapuatea on Ra'iatea.

DAYS 1 & 2: U.S./PAPEETE, FRENCH POLYNESIA/EMBARC

Depart the U.S., arrive in Tahiti, and check in to your room at the InterContinental Tahiti. Join your fellow travelers for lunch and a brief tour of the island before embarking *National Geographic Orion* on day 2. (Day 2: B,L,D)

Freshly picked vanilla pods, Taha'a.

DAY 3: BORA BORA, SOCIETY ISLANDS

Begin your voyage with a view of one of the South Pacific's most iconic images, the angular crags of Bora Bora's Mount Otemanu. Explore the island's interior by 4WD for unparalleled views of the island's turquoise lagoon, then snorkel, dive, kayak, and stand-up paddleboard from one of the *motus* on the outer reef. (B,L,D)

DAY 4: RA'IA TEA/TAHA'A

Encircled by a single fringing reef, and sharing a common lagoon, Ra'iatea and Taha'a are islands well worth exploring. One of the most important cultural sites in the Polynesian world, Marae Taputapuatea was a center for Polynesian seafarers and the location from which they set out for Rapa Nui (Easter Island), Hawai'i and New Zealand. Watch from on deck as we navigate lagoon channels en route to Taha'a, then go ashore for a visit to a small, family-run vanilla plantation. (B,L,D)

DAY 5: HUAHINE

One of Polynesia's best-kept secrets, Huahine is well off the beaten path. Once the home of Tahitian royalty, Huahine maintains the highest density of ancient *marae* in French Polynesia.

Visit these sites with cultural experts and archaeologists who bring them to life. Explore the verdant shoreline by kayak, stand-up paddleboard or Zodiac. Finish the day with a swim in the island's crystal-clear lagoon. (B,L,D)

DAYS 6 & 7: TUAMOTU ARCHIPELAGO

Spend two days exploring some of the nearly 80 islands and atolls in the "Dangerous Archipelago." An uplifted coral atoll, the island of Makatea is one of the most unique landforms in the Pacific. Spend the day exploring limestone caves and grottos with your expedition team and local guides, or search for endemic fruit doves and myriad seabirds. Fakarava is one of the largest atolls in French Polynesia and part of a UNESCO Biosphere Reserve. Snorkel the protected reefs or ride the current into the lagoon on a world famous drift dive. (B,L,D)

DAY 8: RANGIROA

The atoll of Rangiroa is a ring of slender islands known for some of the best diving and snorkeling in French Polynesia. The turquoise lagoon at its center is the second-largest in the world. Our ship passes between the islets to anchor inside the lagoon near the village of Tiputa, where local musicians greet us. Visit the village, and kayak, snorkel, and scuba dive in the rich waters here, home to large schools of pelagic fish, manta rays, dolphins, and sea turtles. (B,L,D)

DAYS 9 & 10: RANGIROA/DISEMBARK/PAPEETE/U.S.

Disembark this morning and take a short flight back to Papeete, where you'll connect to international overnight flights home. (Day 9: B,L)

AZURE SEAS FROM TAHITI TO THE MARQUESAS

17 Days/14 Nights—Aboard *National Geographic Orion*

Remote and enigmatic, the Marquesas are islands that belong to the past. Some of them virtually untouched since the era of European exploration, their isolation has given way to a proud people whose unique Marquesan dialect is a direct link to the ancient Polynesian language of Maohi. Indeed, it is believed locally that the spirits of the ancient Maohi live among the islands' saw-toothed peaks and lush, verdant valleys, and the limestone caves and grottos that we'll explore. Herman Melville penned his novel *Typee* based on his time on Nuku Hiva and established himself as the "man who lived among the cannibals," and Robert Louis Stevenson landed here aboard his yacht *Casco* in the late 19th century.

EXPEDITION HIGHLIGHTS

- ▶ In-depth exploration of the Marquesas, one of the most remote and culturally unique island groups on Earth, both on land and by sea.
- ▶ See ancient stone sculptures, including one of the largest *tikis* in Polynesia, on Hiva Oa.
- ▶ Hike to a remote waterfall and search for rare birds on far-flung Fatu Hiva.
- ▶ Dive or snorkel the stunning reefs of the Tuamotu Archipelago and search for manta rays in the pristine waters around the Marquesas.
